

APOGAEA

2013 - Alchemy

Who What When Where???

Welcome to the Who, What, When, Where? Guide for Apogaea 2013!

It doesn't matter how you mix 'em, there's a whole lot of W's out there, and this book is here to help you find 'em all: events, art, and camps. Also, remember that fun, events, and art will be occurring in unscheduled and unplanned locations. But, **DON'T WANDER OUTSIDE THE BOUNDARIES** looking for them, as this is grounds for expulsion from the event.

Apogaea is what you make it! The entertainment is what you and your fellow participants create. Whatever your special talent might be, share with us!

In case of severe weather, forest fire, or other need for evacuation, please come to Center Camp for more information, and listen for announcements broadcast on the large sound systems. Do NOT attempt to leave in your own vehicle unless instructed to do so - traffic jams or stuck vehicles could endanger lives during an emergency.

Have an idea that you'd like to bring to Apogaea 2014?

Or ideas for how to make Apogaea better?

Wanna volunteer to be more involved in the planning of Apogaea?

Look for notices about serving on the Board, lead position openings, theme contest, flyer/ticket design contest, and the Creative Grant cycle!

Visit <http://www.apogaea.com> for information!

When you get back to the default world be sure to complete the

Apogaea 2013 Census!

<http://www.apogaea.com/about/census>

Save the date: Sunday June 30th from 1-5pm

What can you expect? BBQ, beats, hoops and toys, fun and games, and maybe even a tent in the tree. Lets make this a

fun reflection back on the event we all love so much and show some big juicy love for all of you that helped make it the best ever. More details will be posted at Info Booth. Come sign up for a shift and or just drop in and say hey if you are already squared.

Apogaea is a LEAVE NO TRACE event!

Take a moment to remove all MOOP (Matter Out of Place) from your camp area and help to de-MOOP some areas where you did not camp.

If you had a blast, consider how you'd like to be involved next year.
We'll be looking for star volunteers to lead the team in 2014!

Open Fire Performance for Opening Ceremony

Calling all Fire Performers! How would you like to welcome everyone home to Apogaea with a bang? Well you are in luck! We would like to invite you to participate in the Opening Ceremony! The Opening Ceremony will be an open forum to ALL performers in the Community who have checked into Fire Convergence and taken a required Safety Class (offered at Convergence at 5PM every day). So keep in mind, if you wish to participate you MUST attend the Safety Class on Wednesday. The Opening Ceremony will be at Dark Thirty (circa 9 PM). If you would like to perform please meet at Fire Convergence no later than 8:30 and we will get started! Love and Light!

How to approach a Sick Apogaean Patient

- Vaccinations. Alcohol does not cause autism (neither do real vaccines, so STFU), and it can be used to kill pathogenic organisms. Tequila and whiskey are particularly effective germicidal agents. Tell your naughty nurse if you need to be vaccinated with alcohol. Must be taken orally.
- Tick checks. They can be anywhere on your body. Please allow us to look.
- Mouth to Mouth Aid. You appear short of breath. Perhaps you require more oxygen. I can assist you with that.
- Complete physical exams and cardiovascular testing. These may be conducted at a later time, but only if you schedule a mutually consensual appointment with one of the nurses.

Alchemical Elevation

Alchemical Elevation will consist of 4, 8' tall purple and white podiums, decorated with alchemical symbols, and topped with 6' helium-filled weather balloons. The balloons will be tethered to the tastefully backlit podiums with powered 2000lb winches for safety and elevation control. The 4 podiums will each have one of the symbols of the four elements painted on them, and will each contain a wireless LED light that will cause the balloons to glow brightly throughout the night. The LED lights will react to the music of Panopolis, beckoning travelers from near and far to this metropolis of low frequency sound.

Altar of Prometheus

"Flashing fire, source of all arts, he, Prometheus, has purloined and bestowed upon mortal creatures. Such is his offence; for this he is bound to make requital to the gods."

Come pay your respects to Prometheus, and take advantage of his gift.

Apo-Tucky Derby

What is Apo-Tucky Derby: It's an all ages daytime interactive art project bringing all of the fun, excitement, competition and pageantry of the Kentucky Derby to Apogaea — BURNER style. We have 3 mighty steeds that are spring-loaded and propelled forward when a rider posts. This year at Apo, you get to be a jockey and compete for the Rose Blanket!

The track will be open • Wednesday: 4 p.m. – 6 p.m. • Thursday: 10 a.m. – 11 a.m., and 4 p.m. – 6 p.m. • Friday: 10 a.m. – 11 a.m., and 4 p.m. – 6 p.m.

June 8th (Saturday) 1:00pm we will be hosting "The Kentucky Derby Race". You can be one of 9 Apo participants who will compete for the Rose Blanket, as the crowd cheers you on, drinks Mint Juleps and don their big ass Derby hats.

How does one become a jockey for The Big Kentucky Derby Race on Sat? ALL Apogaea participants are eligible to be a Kentucky Derby Jockey. Each day of Apogaea, the racetrack will be open for timed trials. The 9 top fastest riders are eligible to be a jockey during "The Kentucky Derby Race" on Saturday.

On-Site Gambling at Apo-Tucky Derby: Winner Takes All! Each day of Apogaea our gambling table will be open for betting. This is a dice game played with 4 to 6 players. Everyone places a bet (a gift, schwag, stickers, you name it) on the table. Players roll the dice for their Post (1 through 6) Highest role gets first choice of placement on the board. Then players roll the dice to advance their horse forward or side-to-side (not diagonally). The first player across the finish wins... it all.

Arbor Borealis 2.0

Arbor Borealis is back and 20% bigger. It is a volumetric light sculpture nestled within its wooded surroundings. With carefully hidden microphones, we will capture the sound of any passersby. Custom audio-reactive software will interpret the audio in waves of dynamic color, playing out 3D visualizations in space. Spheres, waves, and other signals will be visually transmitted in the grid. Even when the installation isn't reacting to user sound input, it will play ambient patterns originating from modulation wave generation.

Blackout Bar

We're here to help you get you on your way into the darkness. Only open for a short time sometime between midnight and 4am when the light is on.

The Blossom Effigy

Returning this year as our effigy is "Blossom", built by Somer Andom and her crew last year. Even if there is a fire ban, we hope that "Blossom" will inspire further blossoming at and beyond Apogaea. Lovingly crafted using modern CNC tools and an Open Source tool chain with the help from many friends, it blooms brightest at night. Impromptu flame effects may occur on weekday nights if there are no burn bans.

Burn Your Brain

Explore this giant playa brain by walking underneath it. Many hidden interactive elements are hidden within the brain lobe walls. Can you find them all?

Café L'anus at the ASS Taint

Where ignorant Americans will be completely, utterly ignored. If you're lucky and we can understand what you're blathering on about, you might be rewarded with our "fessées du jour."

Because everything sounds better in French and we don't give a fuck...

The Camp Wardrobe MalFUNKtion Kum-ForIt Stay-shun

Camp Wardrobe MalFUNKtion presents the "Breast Little Scorehouse at Apo" ~~ Kum over and get on down to see our array of potions and notions to: 1) Make you smell pretty (perfumes), 2) Get you to feel all sensual (scented oil for your "boyl" or "goyl", lubes for your pubes and wipes for your pipes), 3) Have you tasting as sweet as suckable with our sugar sticks (gum and lollipops); and, very importantly 4) Help you to be safe (condoms and sunscreen -- warning -- do not mix!!). That's the one and only CWM Kum-ForIt Stay-shun conveniently located in front of the MalFUNKtion tent in

beautiful downtown Apogaea.

The Cloud

Inflatable bubble of goodness. Crawl inside to see what awaits...!

Dinos for Life

For sometime now, it has been publicly known that I love dinosaurs, and over the last few years my dinosaur collection has grown to be quite the spectacle. So in creating Dinos for Life, I not only want to bring my entire dinosaur collection to share with the community but also offer a space where people can come and share their dinosaur costumes, art, food, experiences, or any kind of love for the Jurassic era.

Disco-Corn

Once thought to only exist in the imaginations of young girls and certain swingers clubs...real unicorns have been sighted at Apogaea. Come ride on the unicorn of your dreams by the Fucking Unicorn Camp. She's easy to look at, easy to mount, and easy to love. Discocorn is a true sparkle-pony without all the high maintenance ...and boy does she sparkle. This will be the ultimate Sparkle Pony! ** Like most sparkle ponies this one is DTF but please treat her gentle as she also doubles as a piece of art**

Dr. Paracelsus's "Mystical Invocation"

This is an interactive art installation of light -100 ft by 50 ft, so it will only work at night. Please come and use your mystical powers to transform the ancient symbols of alchemy.

Dr. Paracelsus is considered "Prince of the Alchemists" and was the first person to write about gnomes. The giant symbol in the installation is the alchemists' sign of the gnome. Gnomes are the ones with the power knowledge of the Earth. As such, ancient mystics and alchemists called upon Gnomes as an invocation of the embodiment of Earth. They are not without their wiles. They are dastardly in conniving tricks on those who would fool with their "Mother Nature".

Eye of Solaris

The Eye of Solaris uses the solar energy of nuclear fission focused through a water lens to make fire, pop popcorn, burn offerings, create wood burnt art, heat stones, melt pennies, warm water, make grilled cheese and bacon, and generally amaze people.

Bring things to burn, melt, or otherwise destroy/create with heat. This interaction will be open 10-2 each day, weather permitting.

The structure is decorated with fire and water themed accoutrements and colors, and provides some shade on two sides.

Grumpolith

Lost your favorite boots? Sick of all the dubstep? Ran out of bacon?? Come visit the Grumpolith, a place to relax, unwind, and degrump. Brought to you by 2 Girls 1 Camp, the Grumpolith will serve as an altar to set your inner Grump free. Check out our events!

Han Gin Hangout

The Han Gin Hangout is a giant oriental style lantern with room for two, a room with a view. Climb on in for a little above ground contemplation,

Hidden Retreat

Hidden Retreat is a quiet place to get away from the techno music, wild parties and craziness of the rest of Apogaea. Comfy blankets and pillows beckoning you to take off your shoes, sit down, relax and breathe. Lie down under the trees and look overhead. There, beautiful fabrics, garlands, crystals and wind chimes floating from trees will entertain your eyes and ears (if you aren't napping already). At night the trees and ground are lit up with soft lights. This will be a secret space to nap, relax, journal, create, have conversations, do yoga, meditate, or hold a ceremony.

Hug Bistro

Your friendly Burn Family, one stop, hug shop and Bistro! Give hugs (and other menu items), receive hugs, and most importantly, get to know your Apogaeen community.

IllumAnemone

This installation is a luminous jellyfish tree growing out of the ground. By night it's pulses and ripples with juicy light across and down it's toroidal skeletal structure then the light cascades down into it's tendrils creating a fully immersive experience when you step inside the jelly's belly.

Lady Baby Cave

The lady baby cave which is 98% made out of plastic bags! Please feel free to come in and play on the hammock, meditate on a pouf, interact with a stalactite, or create in the glowing sand. We also are bringing the bus and will be serving up some scrumptious snacks and drinks!

Laughs at Your Back

Inspired years ago from a conversation with beloved Maquette, more than 20 whimsical pillows capture the individual and distinctive laughs of Apo community members in press-activated sound boxes. Fall into the pile of pillows and experience the alchemy of spirit through laughter and comfort. See if you can guess which pillow-giggle belongs to who!

People Catcher

Come hang out in a giant, interactive dream catcher!

The People Catcher is a 15-foot dream catcher suspended from the trees a 45 degree angle. And? And it's YOUR job to climb, play, and experience

the magic of the People Catcher first hand.

Come catch some dreams at the People Catcher! :)

Prima Materia

"Let us learn to dream, gentlemen, then perhaps we shall find truth..." -Keukle

The calm before the storm.

The snake that eats its own tail.

This is the time.

Are we ripe to become new again?

This great work has no limitations, is catalyzed by various interactions, and can seem insurmountable at times. I create this sculpture as a tribute to the universal journey and to remind us the greatest creation can be remade in the image of itself, in a quest to conquest fate.

The Psychedelic Sister Dome

The Psychedelic Siblings present: The Psychedelic Sister Dome- a sacred space for both sexes to explore and embrace the divine feminine. Come by anytime to chill and connect with the inner Goddess. Shrine offerings encouraged.

the Small World Turtle

My project is a smallish sculpture of a turtle carrying a bowl on his back. In the bowl is a pond with a central island. On the island, a bonsai tree. The turtle itself stands on a stump of a larger tree. The whole sculpture will be made out of sculpey and scrap. It is an illustration of the world turtle concept, tweaked, and made to stand for our modern world. There are a number of worlds encapsulated by the sculpture. There is the turtle living in our world, on his back a small ecosystem of plants growing out of his shell surrounding the china bowl.

SoundPuddle

The SoundPuddle is an interactive space of visual-acoustic synesthesia. This spectrographically colorful dome illuminates sound on an immersive canopy of light. Visualize the spectral shapes of sound-space with any noise you can make. You will laugh, shout, and sing as thousands of solar powered LEDs unify your ears and eyes

The Story Portal

We are unveiling our giant, hand-crank story wheel and 40-foot steampunk stage, just so you can fall into The Story Portal and get swept away! Our huge stage and dramatic set up provides the setting for YOU to tell real stories about your life. Our set-up is simple: spin the wheel and tell a story about the topic the wheel shows you. Stories have myriad purposes: to heal, to entertain, to help us make sense of our own experience, to educate others, and to join us together. Come experience this fundamental human ritual.

String Theory Dome: Alchemist Den

String Theory Dome: Alchemist Den will transmute your thoughts on string art with threads that pop, change color, and flow all around you.

The Sukha Dome (of) Kalyana Mittata

The Sukha Dome (of) Kalyana Mittata- "The Bliss of Spiritual Friendship"

Housing the "Laughs at Your Back" project, the Sukha Dome is a 19' white "star" dome where you can come celebrate and contemplate the meaning of Friendship and Community. Contribute to the Friendship Altar (with pictures, poems, mementos) in honor of your friends, make a friendship bracelet, relax and laugh with the pillows, and decorate the dome itself to express what friendship and community mean to you. Open 24hrs during the event, located near the Fucking Unicorns.

Temple of Transubstantiation

The Temple offers itself as the spiritual center of Apogaea. It is a place for reflection, meditation, grieving, commemorating those who have passed, honoring those who have contributed to our lives, forgiveness of self and others, and celebration of the future. Through the alchemy of private ritual in a community space, the Temple offers the possibility of closure and of moving on afresh, the transubstantiation of old energies into new!

Unicorn Playhouse!

Come free your inner child at the Unicorn Playhouse!

Climb, swing, dance, lounge, hide, seek and show off for that girl you like on our multi-level play structure for big kids! Radical Play with Unicorns is the new sit-in-camp-chairs-and-get-drunk!

VagaLumes, the wandering lights

This project is meant primarily as an evening art installation. It consists of 75 fireflies constructed out of recycled, and scrap material wired with blinking LED's. The fireflies will be best viewed from the comfort of the covered swing provided along with the installation. The fireflies will hang from the trees as well as be captured in large jars. They are incredibly interesting to look at as they are all individual and unique sculptures. Their lights will all be timed to blink intermittently capturing the essence and feeling of true caffeinated fireflies. Every evening at dusk (or until we run out of fireflies) we will host firefly happy hour where participants will be encouraged to adopt a firefly and modify/ take it with them.

We encourage everyone to visit our skilled wardrobe engineers for an innovative and creative new look, and then take a saunter down our runway. Decided on jeans and a t-shirt for the weekend? Careful! You might get BUSTED by our fashion police intent on preventing fashion emergencies. Citation recipients will be taken into custody for fashion makeovers. Careful, they have fuzzy handcuffs and bootywhackers! CWMF is ALWAYS looking for costumes and clothing to share with the Apogaea community. Please bring any costumes, accessories and clothing donations in CLEAN condition. We will be accepting donations all weekend

Campalicious

Stop by The Bobalicious Grill for some of Bob's tasty sausage and balls! He may even be delivering them to unsuspecting Apogaeans no doubt making their experience even more delightful. Look for us across the street from where we were last year, or just follow your nose! =)

Club meh.

"Club meh." is a theme camp that's primary purpose is to regulate the amount of meh. that circulates around Apogaea, to make sure when there is not enough meh. to add some in and to reduce meh. in other areas as necessary.

Costco Soulmate Trading Outlet

Costco Soulmate Trading Outlet is Apogaea's leading supplier of high quality, low cost soulmates. We do this by eliminating many of the costly overhead expenses faced by traditional stores. Such as fancy display cases, sales people, advertising, research, morals, scruples and so on.

Join us for a drink, stimulating paperwork, interview, and the knowledge you will be receiving your finest quality soulmate match at Apogaea.

Ask about our 2 for 1 special and Black Rock City trade-in policy!

De Camp

Contrary to what your Momma told you, violence is a SOLUTION. Did your Sparkle Pony campmate drink all your beer? Is she playing too much dubstep again? Did some peisty Pirate steal your Precious? Well don't get mad and post nasty Facebook posts, give them a beating! Thurs - Sat from 2pm - 7pm is where you can find combatant fun at De Camp! Our idea stems from the movie, Mad Max: Beyond Thunderdome. De Camp's Redunder Dome will be very similar with bungee harnesses and foam fighting weapons. Let the MAYHEM begin!

Department of Sparks & Wrekcreation

The Dept of Sparks and Wreckreation provides public services to the citizens of Apogaea by comically and lightheartedly citing and reprimanding groups and individuals based off a variety of prohibited (or encouraged) behaviors. The citations become invitations to one's "sentencing" which

takes place at night around the fire table or burn barrel, or during an afternoon session of Radical Dehydration.

ERUPTION: The Second Cumming

Emerging from the hills a volcano is growing. The surrounding energetic beats are thumping and pounding to growing crescendos. Fire explodes from orifices surrounding the mountain. Bodies move in celebration, grinding, thrusting, pulsing and sweating in the warmth of the fire. Cum bask in the glow as Eruption emerges for its second cumming.

Cum enjoy second cumming. Wednesday and Friday from 8:00pm until 2:00am. Saturday after the burn until late.

EXS

My vision is simple: blend improvised sound sculpture with music to create a sonic environment that both soothes and challenges. From beginning to end, I never know what's going to come out of the speakers. My setup is simple: a pair of powered monitors, a laptop, an audio interface and a 25 key midi controller-I can set up virtually anywhere. I don't have a stunning visual display-its just me and my gear, but I play as long as my body will allow and foist my noise day or night. The shifts in mood my sounds instigate should catch the listener off guard. The question in their mind should be, "What's going to happen next?". They should leave my performance with my sounds imprinted on their brain. The most unique aspect of my performances is I encourage my audience to play my instrument.

Fucking Unicorn Camp

It's time to get your horny on with The Fucking Unicorns! The performance-based theme camp is ready to turn your daytime into playtime and your nighttime into bright-time. The Imagination Machine will be glowing in full rainbow glory, and the beats will be flowing from your favorite DJs and musicians. The Circus of Illumination will be sure to satisfy all your carnal, carny needs - and you too can dangle and dazzle as you learn from the stars at aerial and acro workshops. Other camp features include: the 16 foot Unicorn Clubhouse climbing structure and the loveable, rideable Discocorn. Come play with us!

We are ready to entertain passing Apogaea travelers with a Skol Cosmopolitan or a Beefeater Dry Martini. Escape from the thump thump and come play a game of Putt Putt Golf. Our miniature golf course is out of this world and just might make you shake your booty or whisk you away to the tropics. Choose your very own one of a kind dazzling designer golf club and blinged out ball. Don't let our manicured lawns fool you. We can tramp it up with the trampiest. Just join us out back on our Trampoline. Seize the opportunity for a photo shoot with Xilla's giant cock. On Thursday at 2:00, We will be hosting "Putt Putt and Prom Dresses: An Afternoon Affair". BYO prom dress or you can stop by Camp Wardrobe MalFUNCTION to be Glampified. Glamp Camp will sparkle and shimmer with bling during the day, twinkle among the lights at night and tramp all day long.

Gnome-Man's Land

GNOME-MAN'S LAND - We invite you to submerge your senses in a land in which only ancient alchemists dare to wander. Once upon a time the gnome was the mystical being known only to the alchemists, discovered by Dr. Paracelsus who knew them as indispensable companions for any fantastical journey. Here in GNOME-MAN'S LAND we return the gnomes to their proper place as worshipped by all those seeking to turn dull metal into sparkly gold. We will be spinning beats and pouring drinks for all those who wish to venture into the depths of gnome wisdom, curiosity and shenanigans.

HATEbar

Do you enjoy hugs and glitter? Then go fuck yourself, cuz HATEbar is not for you. Your bartenders will do their best to insult you personally and with style. Nothing is sacred your bartender (who is much better looking and less smelly than you) will do their best to make you cry and then give you shitty whiskey while we get the good stuff. Want a beer instead? Fine, you pussy, but it'll be shaken, not stirred. We are the anti-hippy, a haven from techno, and more fun than your shitty camp.

Just the Tip...

PANOPOLIS

For millennia Alchemists searched for the perfect combination of arcane symbols, volatile ingredients and dangerous rituals that would allow them to transcend simple chemistry, bridge the gap between science and magic, and from mere lead create pure gold. Sadly, they were doomed to fail. Doomed because they had yet to discover the crucial element, an element that would lay hidden for hundreds of years: That element is BASS.

Just as alchemy is a powerful combination of science, magic and insanity, so too is it's crucial component! And now with the discovery of BASS, the final and most powerful Alchemical element, at last we can create pure auditory gold on command!

High up in the mountains of Colorado, surrounded by the glory of nature, immersed in the insanity of our community, and in harmony with all the elements, we invite you to share in the boundless sonic wealth of which mages, mystics, wizards and lunatics can only dream!

Pink Mammoth

Join Pink Mammoth as we gather in celebration and unity, brought together by Pink Love, united in our wish to celebrate ourselves, our lives, and each other. Our camp is designed to stimulate movement, connection, conversation, and enjoyment in the beautiful Colorado afternoon sun.

We have poofy pillows, tinkling chimes, shade from the sun and your friend, the purple elephant! Relax and reflect on your experiences at Apogaea or just float off into the imaginary place that we call Shangri-LaLa. Join us for a guided meditation (see Thursday's or Friday's daily events schedule) or visit Shangri-LaLa anytime, for your own journey to the mystical ethers of poofy pillows and purple elephants.

BAMF Naughty Nurse Rampage ☐

1-5pm

The Bureau of Apogaea Medicine & Fire (BAMF) is taking a more proactive role at Apogaea this year. During my tenure as medical lead, it has come to my attention that many Burners are not properly vaccinated against common pathogens, are unaware of the dangers posed by deer ticks (a parasitic insect native to Colorado), and in general, operate on very little sleep, a lot of bacon, and sex. The Naughty Nurse Rampage will meet at BAMF Bar at 13:00 hours, on Saturday, June 8th, and conduct a 3-4 hour campaign for better health practices across Apogaea. Anyone interested in Apogaea public health is welcome to join us. Please come wearing a nursing uniform (or your favorite onesie, weirdo), bring an item for dispensing alcohol (needleless syringe or water pistol), and your favorite anti-microbial cocktail for vaccinating the unwashed public. Also, gloves, because you will definitely get sticky.

Hug Train - Next Stop: Just Ben @ The Effigy ☐ ☐ ☐

2pm

The incredibly egomaniacal Just Ben requires everyone at Apogaea to come pay homage to him and his Playa Penis. This is the only way we can ensure that the playa penis does not reach critical mass and cause a singularity and destroy everything in the known universe. Come do your duty to prevent this catastrophe from becoming a reality. The scientists at CERN have strongly advised that the Quantum Lichen known as the Playa Penis, and it's Id; Ben, be showered in love and adoration. CERN Scientist Ishe's Mum Ph.D D.D.S. M.Eng B.S. had this to say about the situation: "I want to make this very clear, we perform a great deal of dangerous and questionable experiments here at the Large Hadron Collider; but nothing that we do approaches the amount of danger associated with this Playa Penis."

She later when on to say this: "This is a public and formal call out to Just Ben of the Whomo Truck. You and everyone you know at The Effigy, 2pm on Saturday, for a "Lets hug Ben" gathering! That is; if you have anything under your skirt other than a gaping vagina. I strongly advise that if you plan to come and hug people other than Just Ben, you do it without the knowledge of the Playa Penis. Any attention being showed to anything other than its Id, Ben will surely spell the end of times."
