This is a guide to art, camps, and events at Apogaea 2016.

Remember, however, that happenings *will* be occurring without a schedule or pre-planned location. Apogaea is what you make of it—the entertainment is what you and your fellow participants create.

Whatever your special talent might be, share it with us!

Art, events, and camps marked with an * indicate they received a supporting grant from Apogaea in 2015 or 2016.

ART INSTALLATIONS

(visit Info Booth or see map for locations)
(or just Explore)

Animal Farm* - A massive sculpture garden and propane playground of steel fire sculptures, including the collection of work by the Gammaspace Artist Collective. Includes Arcus Hymenoptera, G.U.S., Hin-Han: Guardian of the Milky Way, The Crystalline Obelisks, and more!

Blingshop*

Burnin' to the Beat* - Sound reactive fire art! See your voice on fire. Bring any instruments you play, jokes or stories you have to tell, and/or music you'd like to hear and then see them on FIRE! We have a soundboard and all the cables to make it happen—all we need is your creativity and participation!

Camp LonerVille* - You are loved. Need a reminder? Come wrap yourself with words of affirmation.

The Camp Wardrobe MalFUNKtion Kumfort Station* - A 24-hour convenience store supplying all Apogaeans with little essentials: gum, condoms, lube, batteries, candy, perfume, sunscreen, bug spray, baby wipes and more! Brought to you by Camp Wardrobe MalFUNKtion (please don't take whole bottles—take a spritz, slather, or a wipe and leave the rest for others) Conveniently located next to the MalFUNKtion tent. Open and stocked 24 hours/day.

Colossal Head* - An interactive video sculpture that allows participants to have their own faces mapped onto its surface, processed with other visuals and prepared material.

Crystalline Obelisks* - These two low-polygon, internally-lit towers mimic the crystalline structure of fluorite, and may house two propane poofers. This new piece represents the re-crystallization of our community. Through, pressure, time, dispersion, re-amalgamation, and moisture, we can form a new structure; we can re-crystalize.

Daylight Box* - A nighttime chill space, a place to rest, to breathe in and out with the rippling of the twinkling lights that surround you. Lose yourself in the therapeutic rhythm of the lights and the soft comfort of the pillows, taking time to reflect or enjoy the wide space of your mind, which in this hypnotic space has quieted for a moment.

Disco Mannequin* - Camp Wardrobe MalFUNKtion is excited to unleash our new concept of a nighttime sound camp at Apogaea 2016. Robert Meredith (Apostar Galactica) and Dan Zahner ("Thing") have worked together to fabricate a showpiece centered around Erica Schafer's "Disco Mannequin."

Ducky*

The Fountain*

Funky Forest Friends* - The Funky Forest Friends, a group of extremely awesome creatures that randomly rumpus and frolic throughout Apogaea!

Hin-Han: Guardian Of The Milky Way* - This large-scale propane burning owl sculpture will be included in the Animal Farm art installation to guard our garden of spirit animals and dark, otherworldly creatures and performances. Hin-Han is a stoic and ageless spirit whose dark and looming presence will signify the impending chaos in the Animal Farm garden.

The Illumine* - A light installation which creates a colorful space in which tendrils of light intermingle and dance across the ground. Let the soothing light wash over you and tickle your optic nerves. After sunset Thursday, Friday, & Saturday.

The Kindling Project*

Launch Pad Bouncy Lounge - Defy gravity and launch yourself into outer space on our Launch Pad Bouncy Lounge. How high will you go? Can you catch a flying star? Can you moonwalk the entire length without hitting planet Earth? At the Bad Astronauts Camp

Moist Rabbit Coffee Kiosks* - Mobile kiosks serving coffee daily.

The Ocean* - A hidden oasis nestled in a discrete area in the forest. As you approach, you hear the sounds of waves and seagulls playing softly. Rippling water reflects on magnificent sea creatures. You remain dry as you venture further and deeper into the water. There are areas for you to sit, relax, and enjoy the magical sensation of being inside a fishbowl.

The Octopussy* - A radically illuminated octopus/cat-hybrid mutant vehicle that explores the depths of time and space. Lighting up the night sky, she brings joy and wonder to all who lay eyes upon her. Check out her underwater lounge with large plush seating and don't forget to plunder the booty by checking out her take-it/leave-it treasure chest!

Penguin Paint - Come paint or be painted—all materials provided. Face and body paint, makeup, and henna, all under a nice cool shade structure.

The Ring of Existential Reflection at Camp Fuckin' Classy.* - Peace, love, unity and respect before the dreamweaver. Through the cosmic interaction of subatomic chakras, reality's own passion intertwines with your own and ennobles perspiration the likes of which The Universe has never previously realized. Realize the power deep within: Wheels.

Robot Resurrection*

The Shack-To-Hell-U-Ride* - An artistic interpretation of a Colorado miner's cabin that's on fire, this mutant vehicle (stationary for the event) has been modified to have a dynamically flaming roof. The Shack is made of found objects, wood and artifacts from the mining era in Telluride, Colorado. The interior space resembles a miner's cabin complete with a wrought-iron bed, a stove, and an icebox. Our goal is to inspire people to recycle, learn about mining-era history, and enjoy the warmth of the Shack. Guests can interact with the fire element by making the chimney poof from inside the shack.

SoundPuddle - An interactive space of visual-acoustic synesthesia. This spectrographically colorful dome illuminates sound on an immersive canopy of light. Visualize the spectral shapes of sound-space with any noise you can make. You will laugh, shout, and sing as thousands of solar-powered LEDs unify your ears and eyes. Bring your musical instruments and voices to co-create an unforgettable experience.

Speleotower* and Speleobox* - Climb, play, find your way to the top or dance a jig below. Hang out, hang on or chase through... the choice is yours!

Stay Alive Biodiversity Sphere - Forty-five endangered species await you. Come and have a grasshopper (or a virgin grasshopper). Thursday and Friday.

Super Animatron* - Such beautifully mischievous lights these gnomes have created... As the colors flow from one to the next you're swept into a vortex of light and shadow and placed on a collision course with your personal eschaton. Can you stand in the presence of such beauty without tempting insanity?

Visit TWIMBY day or night for a luminous journey into the center.

The THING* - A giant robotic skeletal hand, mounted on a six-wheel-drive chassis. It has a very simple interactive control system that can be operated by anyone, even very young children. THING will spend most of its time crawling around the main road, gifting "Panty-Dropper Punch" and other delights!

Through the Logic Glass* - An art-and-mind experience inspired by both traditional Alice in Wonderland artwork by John Tenniel and Lewis Carroll's logic puzzles.

Transdimensional Eggivation Portal*

Truffula Tree Hammock Oasis* - A sea of glowing fluffy trees, alive with sound and light and wonder! An oasis from hot days and an interactive sound and light show at night.

The Unusually Large Kaleidoscope* - Made of reclaimed wine barrels.

You Are Here* - A large, 3-dimensional sign, orienting participants in space, time, and appreciation. Serving both as a landmark to orient people in physical space, and as a reminder of how important it is to appreciate the present moment.

Everyone will meet up at the Temple, where we will sing and dance together and light it up once it's dark.
